Colleagues,

As promised in my email yesterday, the District Academic Senate will be holding online forums for faculty whose hands-on activities are disproportionately impacted by the transition to virtual teaching and learning. Specifically, we will be holding forums for science lab instructors, musical performance, studio art, and kinesiology/dance. If you are in a different discipline, and you would like to have a forum where you can chat about pedagogy and curriculum with your district colleagues, please let me know. I'd be happy to organize and facilitate one for you.

With that being said, here are the following times (Outlook invites with Zoom information will be sent to faculty in these disciplines shortly):

- STEM Labs: Wednesday, March 18<sup>th</sup>, 3 – 4 pm
- Musical Performance: Wednesday, March 18<sup>th</sup>, 4 – 5 pm
- Kinesiology/Dance: Thursday, March 19<sup>th</sup>, 3 – 4 pm
- Art: Thursday, March 19<sup>th</sup>, 4 – 5 pm

These forums are meant for discipline experts to collaborate, innovate, and brainstorm online pedagogical practices for courses that are generally hands-on. I will facilitate the forums, but I am counting on you all to bring the content expertise (I am not an expert in any of these disciplines, so I won't have much to contribute). With that being said, I will be asking experts in distance learning and curriculum to join us to answer these types of questions.

Stay safe and stay healthy,

Jeramy

Associate Professor of English
