

Resolution in Support of District Teaching and Learning Committee's Recommendation on Artificial Intelligence Notification

Whereas, San Mateo County Community College District's District Teaching and Learning Committee (DTLC), a subcommittee of District Academic Senate, has formed three communities of practice on Artificial Intelligence (AI), including the Guidance and Ethics community of practice, whose purpose includes developing recommendations on policy, procedure, and communications around AI, and

Whereas, On Wednesday, March 18, 2026 the Guidance and Ethics community of practice approved recommended language on AI notification in syllabus statements;

Resolved, District Academic Senate approves the following language to be communicated to faculty and sent to local Senates for the purpose of clarifying confusion AI notification in syllabus statements:

Recommendation on Artificial Intelligence Notification

We recommend that all faculty have a statement on artificial intelligence use in their course syllabus. Drafting of artificial intelligence syllabi language can be guided by frameworks such as the [Stoplight Framework](#), which has been introduced and recommended at the District Academic Senate. Faculty should consider the following syllabus statement elements:

- Student-use of AI
- Faculty-use of AI
- Academic Integrity, Plagiarism & Copyright
- SMCCCD Syllabus Statement Resources
 - [SMCCCD Syllabus Guidance](#)
 - [Sentient Syllabus Resource Guide](#)

We further recommend that statements related to artificial intelligence are regularly updated, as the nature of AI continues to evolve.
