AFT's Recommendations for HSEPC

Dec 2, 2021

That the following recommendations for enhanced health and safety practices and strategies be brought to the District Safety Committee (31 voting members) for consideration:

0. Per Board Policy 2.90, Chancellor provides an administrative procedures document, similar to that of Foothill College or College of Marin, that includes: a definition of each in-person campus program, service and activity (in-person indoor class, indoor sporting game, indoor theater performance, etc.); definitions of each type of visitor to campus (guest, contractor, volunteer, student, employee, etc.); and corresponding details of which health and safety rules and practices are applicable to each (matrix). (Vote 9 in favor, 0 opposed and 5 abstentions)

For examples, see Reference Document 1: Administrative Procedures, Board Policies & Health Screening Systems at Regional CCCs and Reference Document 2: District Administrative Procedures Matrix.

1. Require that face masks continue to be worn indoors by all people present on campus, regardless of their vaccination status OR any orders rescinded by San Mateo County or the state of California through the conclusion of the Spring 2022 semester. (Vote 13 in favor, 0 opposed and 1 abstention)

2. Provide enhanced reporting of positive Covid cases and transmissions on a publicly available online dashboard system that’s updated as soon as positive cases are known and include location(s) of room(s) or indoor spaces where those exposure(s) took place. (Vote 15 in favor, 0 opposed and 5 abstentions)

3. Reduce occupancy levels for classrooms and other indoor meeting spaces by 25% to prevent overcrowding and allow for social distancing. Allow that Employees may proactively encourage social distancing in those spaces at their discretion. (Vote 12 in favor, 0 opposed and 6 abstentions)

4. Provide additional SMCCD campus signage including questions about symptoms (“do you feel sick?”) and information about where to obtain masks during evening and weekend hours. (Vote 8 in favor, 1 opposed and 8 abstentions)

5. Create a District-wide health screener/pass system, consistent with other regional CCCs, for use by all types of visitors to our campuses. The system should ensure that employees have access in real time to information about the vaccination status of visitors. Links to examples of screening processes employed by Regional CCCs is provided by Reference Document 1. (Vote 9 in favor, 5 opposed and 1 abstention)
6. Provide up-to-date information about ventilation and filtration features operational in each indoor room or area where people work or gather on each SMCCD campus. **(Vote 9 in favor, 0 opposed and 4 abstentions)**

7. Provide HEPA filtration devices for use in classrooms, windowless spaces, and spaces where employees meet with students, to any employee who has requested such and within 3-5 business days of their request. Employees may request and receive devices directly through Facilities without a dean or manager’s advance permission. **(Vote 12 in favor, 0 opposed and 2 abstentions)**
