* Indicate Limited Placements

As a finance intern within the market research team, the student is responsible for providing financial and real estate reporting.

“My placement is helping me develop knowledge and skills by assigning specific topics to research and write about, which provides me with an insight to the real estate industry in Europe. Through this research I am learning about the differences between real estate in Europe and the United States, as sustainability and energy efficiency plays an incredibly important roll in European real estate.”

- Real estate finance major
